

2023 Australian Hay Mini Nationals

Updated news!!

Following the release of information regarding our dual permit system we have been contacted by Motorsport Australia (MA) and very graciously offered the exclusive use of a MA Single event licence (\$35) for the Australian Hay Mini Nationals.

This means that we can run completely within the auspices of MA and cater to the large number of our people that only compete in one event per year.

The MA Single event (SE) licence had previously been removed from sale due to a range of reasons including occasional abuse, (from both competitors and organisers around the country) and increased paperwork.

The Australian Hay Mini Nationals would like this re-introduction to continue and so will be running the scheme with great diligence and attention to detail.

Competitors will be welcome to use;

- An existing MA speed licence or higher
- Purchase an MA speed licence or higher prior to the event via the MA website
- **Or purchase an MA single event speed licence for \$35 at the event. (We will have hard copies available)**

If purchasing an MA speed licence or higher, we strongly urge you to complete this via the Motorsport Australia website prior to the event!
